### Victor & Co

Arlington, Texas  
July 2011 - July 2013

Research Associate

- Prepared reports and recommendations based upon research outcomes.
- Developed new methods to study the mechanisms of biological processes.
- Shared research findings by writing scientific articles and by making presentations at scientific conferences.
- Developed methods to process, store, and use foods, drugs, and chemical compounds.
- Produced pharmaceutically and industrially useful proteins, using recombinant DNA technology.

## EDUCATIONAL QUALIFICATION

### Master of Research

Science  
Dartmouth University  
Arlington, Texas  
January 2008 - January 2011

## SKILLS

- Understanding written sentences and paragraphs in work related documents.
- Understanding the implications of new information for both current and future problem-solving and decision-making.
- Communicating effectively in writing as appropriate for the needs of the audience.
- Using logic and reasoning to identify the strengths and weaknesses of alternative solutions, conclusions or approaches to problems.
- Giving full attention to what other people are saying, taking time to understand the points being made, asking questions as appropriate, and not interrupting at inappropriate times.

## QUALIFICATIONS

- Knowledge of plant and animal organisms, their tissues, cells, functions, interdependencies, and interactions with each other and the environment.

- Knowledge of the chemical composition, structure, and properties of substances and of the chemical processes and transformations that they undergo. This includes uses of chemicals and their interactions, danger signs, production techniques, and disposal methods.
- Knowledge of the structure and content of the English language including the meaning and spelling of words, rules of composition, and grammar.
- The ability to combine pieces of information to form general rules or conclusions (includes finding a relationship among seemingly unrelated events).
- The ability to apply general rules to specific problems to produce answers that make sense.
